SUBJECT INDEX

Page references to Supplement 1 to Volume 18, Number 2 are preceded by an "S."

Acute lymphoblastic leukemia
  chromosomal abnormalities in, 111-123
Adaptation
  child/family, nursing outreach program to enhance (abstract), 58
Adolescents
  cancer-surviving
    resiliency of, and decision making and risk behaviors in, 188-204
  with cancer
    bone marrow transplant patients, perceptions of sexuality in (abstract), 83-84
    distraction with virtual reality glasses during lumbar puncture (abstract), 83
    evaluation of cancer-related fatigue in children and, S1-S23
    gynecologic and fertility issues (abstract), 56
    helping them cope (Roadmaps), 138-139
    sources of emotional support for, 105-110
Advanced practice nurses
  value of specialized distance education in pediatric oncology nursing, 26-36
Alcohol use
  resiliency and decision making in cancer-surviving adolescents, 188-204
Alternative therapy
  use among children with cancer in Saskatchewan, 16-25
Anaphylaxis
  chemotherapy-induced, precautions for (abstract), 64
Anemia
  incidence of in children with cancer (abstract), 85-86
Association of Pediatric Oncology Nurses (APON)
  25th year commemorative issue (July-August), 141-185
    APON and me (Roadmaps), 184-185
    APON's first 25 years, as seen, by past presidents, 178-183
    celebrating 25 years (Guest Editorial), 141-142
    hematopoietic stem cell transplantation, 171-177
    impact of pediatric oncology nursing research, 164-170
    providing care through decades of change, 154-163
    psychsocial trends in pediatric oncology, 143-153
  challenge to all APON members, 49 (Editorial)
  Practice Net (abstract), 59
  proceedings of 24th annual APON conference, 55-87
    award winners for 2000, 55
    clinical practice paper and poster abstracts, 56-67
    educational paper and poster abstracts, 68-82
    research paper and poster abstracts, 83-87
  proceedings of workshop on fatigue in children with cancer (Supplement 1), S1-S23
    clinical applications of research on, S17-S20
    consensus statements on new model to evaluate, S21-S23
    developing a research program on, S3-S12
    evaluating a model of, S13-S16
    guest editorial, S1-S2

B-cell leukemia
  chromosomal abnormalities in, 117-118
Backache
  after lumbar puncture, 254-255
Bereavement
  psychosocial practice trends, 149
Best practice information
  on APON Practice Net (abstract), 59
Biopsy
  liver, in long-term survivors of childhood cancer with hepatitis C, 10
Bladder side effects
  of chemotherapy, monitoring of (abstract), 62-63
Bleeding disorders
  after lumbar puncture, 255-256
Blood transfusions
  current blood safety recommendations, 12-13
Bone marrow transplantation
  and hematopoietic stem cell transplantation, past and future of, 171-177
  computer-based nursing education program (abstract), 73
  for metastatic neuroblastoma, with metaiodobenzylguanidine (abstract), 61
  in culturally diverse patients (abstract), 60-61
  nursing orientation on, with games (abstract), 81
  patient education books on (abstract), 75
  perceptions of sexuality in adolescents undergoing (abstract), 83-84

Book review
  Breen: *Cancer's Gift*, 137
Boundaries, therapeutic, 151-152
Burkitt's leukemia
  chromosomal abnormalities in, 117-118

Camp, summer
  Barretstown Gang camp in Ireland (abstract), 77
  for children with cancer (Editorial), 89, 150-151
Camping, therapeutic
  nursing in (abstract), 77
  see also Camp, summer
Cancer survivors, *see* Survivors, of childhood cancer
Cancer, childhood
  educational/outreach program on, for school nurses and educators (abstract), 80-81
  fatigue in children with (APON workshop proceedings, Supplement 1), S1-S23
    clinical applications of research on, S17-S20
    consensus statements on new model to evaluate, S21-S23
    developing a research program on, S3-S12
    evaluating a model of, S13-S16
    guest editorial, S1-S2
  genetics of, 113-114
  hepatitis C virus infection in long-term survivors of, 4-15
  incidence of anemia in (abstract), 85-86
  rural families perspectives on having a child with, 205-216 *see also specific types of cancers*
Caregivers
  teaching device for tracheostomy suctioning for (abstract), 73-74
  see also Parents
Chemotherapy
  anaphylaxis induced by, precautions for (abstract), 64
  competency-based approach to recertification (abstract), 77-78
  enteral feeding during, safety and cost-effectiveness of, 217-223
  for retinoblastoma, plus cyclosporine, laser therapy, and cryotherapy, 50-54
  monitoring bladder and renal effects of (abstract), 62-63
  parents' perception of child's food intake after start of, 124-136
  performance improvement project, and education of staff (abstract), 65-66
  variations in administration of cyclophosphamide and mesna, 37-45
Chromosomal abnormalities
  in childhood leukemia, significance of, 111-123
    basic and cancer genetics, 113-114
    cytogenetic analysis, 114-116
    DNA index, 116-117
    historical perspective, 112-113
    translocation t(1;19)(q23;q13), 118
    translocation t(4;11)(q21;q23), 118-119
    translocation t(8;14)(q24;q32), 117-118
    translocation t(9;22)(q34;q11), 119
    translocation t(12;21)(q13;q22), 117
    trisomy 4 and 10, 117
    trisomy 21, 119-120
Cirrhosis
  risk if, in long-term survivors of childhood cancer with hepatitis C, 7
Clinical trials
  impact of single-site studies in pediatric oncology, 166-167
  variations in administration of cyclophosphamide and mesna in, 37-45
Coagulation indicators
  from venipuncture and tunnelled venous access devices (abstract), 85
Collaboration
  in pediatric oncology nursing research, 167-168
Comforting
  of terminally ill patients (Roadmaps), 239-241
Communication
  and collaboration in pediatric oncology nursing research, 167-168
Community interventions
  psychsocial practice trends, 150-151
    camp programming, 151-152
    school issues and re-entry, 150
Complementary therapy, *see* Alternative therapy
Computers
  distance learning, *see* Distance education
  patient education online (abstract), 71
  pediatric bone marrow transplant nursing education program on (abstract), 73
Conscious sedation
  for outpatient procedures (abstract), 63-64
  role in pediatric oncology patients (abstract), 64-65
Coping
  child/family, nursing outreach program to enhance (abstract), 58
  helping adolescents cope with cancer (Roadmaps), 138-139
Cultural diversity
  in pediatric bone marrow and stem cell transplant patients (abstract), 60-61
Cyclophosphamide
  variations in administration of mesna and, 37-45
Cyclosporine
  with chemotherapy and laser therapy for retinoblastoma, 50-51
Cystitis, hemorrhagic
  developing a standard of care for (abstract), 79-80
Cytogenetics
  chromosomal abnormalities in pediatric leukemias, 111-123

Dapsone
  methemoglobinemia induced by, in children with cancer, 224-228
Death and dying
  societal beliefs about children's, impact of nursing research on, 164-168
Decision making
  resiliency and risk behaviors in cancer-surviving adolescents, 188-204

Depression
in grieving process of Japanese mothers after loss of child, 262-265
Development, child
interventions focused on, 143-144
Distance education
essential alternative in pediatric oncology (abstract), 68-69
specialized, in pediatric oncology nursing for advanced practice nurses, 26-36
Distraction techniques
with virtual reality glasses during lumbar puncture (abstract), 83
Diversity, *see* Cultural diversity
DNA index
chromosomal abnormalities in pediatric leukemia, 116-117
Down syndrome
trisomy 21 and pediatric leukemia, 119-120
Drugs, illicit
resiliency and decision making in cancer-surviving adolescents, 188-204
Dysesthesias
after lumbar puncture, 254

Education, community
for school nurses and educators, on children with cancer (abstract), 80-81
Education, nursing
bone marrow transplantation, orientation on with games (abstract), 81
hematology/oncology training center for nurses in Central America (abstract), 78
nursing handbook for new orientees (abstract), 71-72
of hospital staff, performance improvement project (abstract), 65-66
program on terminal care issues for nurses (abstract), 70
specialized distance education in pediatric oncology in nurse practitioner program, 26-36
training novice oncology nurses in patient teaching (abstract), 74
Education, patient/family
books for
Adam Goes to the Operating Room (abstract), 74-75
on bone marrow transplant (abstract), 75
caregiver teaching device for tracheostomy suctioning (abstract), 73-74
developing a family education hour (abstract), 68
evaluating board game as tool for (abstract), 87
on graft-versus-host disease (abstract), 76-77
online (abstract), 71
outcome survey (abstract), 86-87
program to help nurses become effective teachers (abstract), 74
Emotional support
sources of, for adolescents with cancer, 105-110
End-of-life care
pediatric advanced care team (PACT) for (abstract), 57-58
see also Palliative care
Enteral feedings
safety and cost-effectiveness of, in children with cancer, 217-223
Expressive interventions
for hospitalized children, 147

Families, of children with cancer
developing a family education hour for (abstract), 68
interventions for, psychosocial practice trends, 143-147
outcome of oncology education for (abstract), 86-87
rural, perspectives of, 205-216
siblings, social support for, 90-104
understanding special circumstances of (Editorial), 187
see also Parents
Family-centered care, 145-146
Fatigue, in children with cancer
proceedings of APON workshop (Supplement 1), S1-S23
clinical applications of research on, S17-S20
consensus statements on new model to evaluate, S21-S23
developing a research program on, S3-S12
evaluating a model of, S13-S16
guest editorial, S1-S2
Fellowships
hospital-based nursing research, for staff nurses (abstract), 69-70
Fergusson, Jean, EdD, RN, PNP/O
interview with living legend, 229-238
Fertility
issues in adolescents with cancer (abstract), 56
Focus groups
methodology for patients, parents, and siblings, 276-286
moderator training, 279
purpose, 277-278
recruitment, 278-279
session conduct, 279-283
staffing, 279
Food intake
parental perception of child's, after start of chemotherapy, 124-136

Genetics
chromosomal abnormalities in childhood leukemia, 111-123
Graft-versus-host disease
patient and family education on (abstract), 76-77
Grieving process
of Japanese mothers who have lost a child to cancer
adjusting to life after, 260-267
establishing a new relationship from memories, 268-275
Guidelines, nursing care
to accompany therapeutic research protocols (abstract), 76
Gynecologic issues
and fertility issues in adolescents with cancer (abstract), 56

Headache, post-dural puncture
after lumbar puncture, 244-259

associated characteristics, 246
defining characteristics, 245-246
incidence, 246-247
needle characteristics, 249-251
pathophysiology, 245
population/patient factors, 247-249
precipitating factors, 247
procedural techniques, 251-253
treatment, 253-254
Hematology-oncology unit
nursing orientation in (abstract), 72
Hematopoietic stem cell transplantation, 171-177
complications associated with, 174-175
development of conditioning regimens, 172-173
donor selection, 173-174
future of, 175-176
historical overview, 171-172
patient selection, 173
Hemorrhagic cystitis
developing a standard of care for (abstract), 79-80
Hepatitis C virus infection
in long-term survivors of childhood cancer, 4-15
clinical course, 6-7
current blood safety recommendations, 12-13
genotype, 9-10
history and etiology, 5
incidence, 5
liver biopsy, 10
nursing implications, 13-14
pathophysiology, 6
screening and diagnostic tests, 8
transmission, 7-8
treatment options, 10-12
Hepatocellular carcinoma
risk of, in long-term survivors of childhood cancer with hepatitis C, 7
Herniation
after lumbar puncture, 255
History, of pediatric oncology nursing
APON's first 25 years, as seen by past presidents, 178-183
changes in through the decades, 154-163
interview with Jean Fergusson, EdD, RN, PNP/O, 229-238
of hematopoietic stem cell transplantation, 171-172
Hospital-based research
fellowship program for staff nurses (abstract), 69-70

Immunocompromised patients
dapsone-induced methemoglobinemia in pediatric, 224-228
Immunodeficiency
severe combined immunodeficiency syndrome (abstract), 81-82
Infection
after lumbar puncture, 255
Interferon
for hepatitis C virus infection in long-term survivors of childhood cancer, 10-12
adverse effects, 11
with ribavirin, 11-12
International pediatric oncology nursing
grieving process of Japanese mothers who have lost a child to cancer
adjusting to life after, 260-267
establishing a new relationship from memories, 268-275
hematology/oncology training center for nurses in Central America (abstract), 78
unconventional therapy use among children with cancer in Saskatchewan, 16-25

Laser therapy
with chemotherapy, for retinoblastoma, 50-54
Leukemia, childhood
perspective on nursing care for through the decades, 154-163
significance of chromosomal abnormalities in, 111-123
basic and cancer genetics, 113-114
cytogenetic analysis, 114-116
DNA index, 116-117
historical perspective, 112-113
translocation t(1;19)(q23;q13), 118
translocation t(4;11)(q21;q23), 118-119
translocation t(8;14)(q24;q32), 117-118
translocation t(9;22)(q34;q11), 119
translocation t(12;21)(q13;q22), 117
trisomy 4 and 10, 117
trisomy 21, 119-120
Liver disease
hepatitis C virus infection in long-term survivors of childhood cancer, 4-15
Long-term survivors, of childhood cancer
hepatitis C virus infection in, 4-15
Lumbar puncture
adverse effects of, 244-259
implications for nursing practice, 256-257
other complications after, 254-256
post-dural puncture headache, 244-254
distraction with virtual reality glasses during (abstract), 83
Lymphoblastic leukemia, acute
chromosomal abnormalities in, 111-123

Memories
Establishing new relationship from, after death of child, 268-275
holding onto (Editorial), 1-3
Mesna
variations in administration of cyclophosphamide and, 37-45
Metaiodobenzylguanidine (MIBG)
for metastatic neuroblastoma, with bone marrow transplantation (abstract), 61
Metastases
neuroblastoma, new treatment modalities (abstract), 61
Methemoglobinemia
dapsone-induced, in children with cancer, 224-228
Monoclonal antibody therapy
rituximab
initial experiences with (abstract), 65
user in pediatric oncology patients (abstract), 61-62

Mothers, of children with cancer
Japanese, grieving process after loss of child
adjusting to life after, 260-267
establishing a new relationship from memories, 268-275
psychosocial intervention for, during stem cell transplantation (abstract), 84-85
Multidisciplinary teams
functioning of, 151
Multidrug resistance
in retinoblastoma, 50-51

Nasogastric tube feeding
safety and cost-effectiveness of, in children with cancer, 217-223
Nasojejunal tube feeding
safety and cost-effectiveness of, in children with cancer, 217-223
Nerve palsies
after lumbar puncture, 255
Neuroblastoma
metastatic, use of metaiodobenzylguanidine with bone marrow transplant (abstract), 61
Nucleic acid detection
of hepatitis C virus, in long-term survivors of childhood cancer, 8-9
Nurse practitioners
value of specialized distance education in pediatric oncology nursing, 26-36
Nurses, *see* Pediatric oncology nurses *and* Staff nurses
Nutrition
parents' perception of child's food intake after start of chemotherapy, 124-136
Nutritional support
enteral feedings, safety and cost-effectiveness of in children with cancer, 217-223

Online information
patient education (abstract), 71
Orientation, of new nurses
across hematology-oncology service line (abstract), 72
nursing handbook for (abstract), 71-72
Outcomes
of oncology family education (abstract), 86-87
Outreach programs
enhancing child/family adaptation and coping with (abstract), 58
Ovarian preservation
guidelines for, in adolescents with cancer (abstract), 56

Palliative care
children's supportive and (abstract), 66
creating a pediatric oncology program in (abstract), 59-60
psychosocial practice trends, 148-149
see also End-of-life care
Parents, of children with cancer
Parent Day to provide time off for (abstract), 66-67
perception of child's food intake after start of chemotherapy, 124-136
perceptions of school-aged siblings needs for social support, 90-104
see also Families, Fathers, *and* Mothers
Patients, nurses' interaction with
holding onto memories (Editorial), 1-3
see also Roadmaps
Pediatric Advanced Care Team (PACT)
improving end-of-life care (abstract), 57-58
Pediatric oncology nurses
educational program on terminal care issues for (abstract), 70
interview with Jean Fergusson, EdD, RN, PNP/O, 229-238
issues for, on hepatitis C virus infection and long-term survivors of childhood cancer, 4-15
see also Staff nurses
Pediatric oncology nursing
comparison of nursing care in 1948, 1972, 1991, and 2000, 154-163
distance learning program in (abstract), 68-69
impact of nursing research, 164-170
psychosocial practice trends in, 143-153
specialized distance education in, for nurse practitioner program, 26-36
Philadelphia chromosome
abnormalities of, in pediatric leukemia, 119
Play interventions
for hospitalized children, 147 *Pneumocystis carinii* pneumonia (PCP)
dapsone-induced methemoglobinemia in children with cancer at risk for, 224-228
Post-dural puncture headache, *see* Headache
Practice Net
for sharing ideas and comparing practice (abstract), 59
Preceptors
empowerment of, through programs and pathways (abstract), 78-79
Professional issues
in pediatric oncology nursing
boundaries and, 151-152
multidisciplinary team functioning, 151
Protocols, in clinical trials
nursing care guidelines to accompany (abstract), 76
variations in administration of cyclophosphamide and mesna in, 37-45
Psychological preparation
of patients for procedures, 146
Psychosocial intervention
for mothers during their child's stem cell transplant (abstract), 84-85
Psychosocial practice trends
in pediatric oncology, 143-153
bereavement, 149
community intervention, 150-151
palliative care, 148-149
patient and family intervention, 143-147
professional issues, 151-152
support groups, 147-148
survivorship, 149-150

Radiation therapy
enteral feeding during, safety and cost-effectiveness of, 217-223
Radicular irritation, transient
after lumbar puncture, 255
Re-entry, to school
for children with cancer, 150
Recertification, chemotherapy
competency-based approach to (abstract), 77-78
Renal side effects
of chemotherapy, monitoring of (abstract), 62-63
Research
changes in practice based on, enteral feedings for children with cancer, 217-223
clinical applications of, on fatigue in children, with cancer, S17-S20
development of program to evaluate fatigue in children with cancer, S3-S12
focus group methodology for patients, parents, and siblings, 276-286
hospital-based nursing research fellowship for staff nurses (abstract), 69-70
